APPROVAL TRADE.—The system of sending stamps mounted upon sheets and in books, out to collectors on approval has been very much abused by both dealers and collectors.

We wish to state our rules and regulations in regard to this department of our business, very plainly.

Accounts opened by minors with us must be approved and guaranteed by parents or guardian.

All stamps that we forward by registered mail must be returned to us REGISTERED.

Correspondents are expected to pay return postage, registration, and cost of draft or money order. Coin must not be sent by mail on account of the danger of loss through breaking the envelope or theft.

We have not the time to devote to petty approval sheet business, and further selections will not be sent to parties whose net remittances are below 25 cents, unless there is a reasonable excuse. The trade of the class of people who are in the habit of requesting sheets to buy a few cents worth of stamps is respectfully declined.

Selections of stamps should not be kept more than ten days and in extreme cases twenty days. Parties who are slow and are in the habit of being dunned for returns will not request stamps.

Unless you have an open account or are known to us, good business or bank references are required.

We shall take pleasure in devoting our time and attention to collectors who are BUYERS OF STAMPS, and are always glad to make new friends.

Always state size of collection and send reference. Our stamp books are divided into many classes, and we also put up many want lists. A few of the lines are:

U. S. Postage	Canada Revenues
“ Revenue	Mexican Revenues
“ Match and Medicine	Other Foreign Revenues
“ Telegraph	British Colonies
“ Envelopes	Common Foreign
“ Periodicals	Good Foreign
“ Locals	European
State Revenues	South America
Plate Numbers	Unused Stamps
Entires	New Issues, Etc., Etc.
Original Covers of U. S. and Foreign	

SHEETS FOR AGENTS.—We have a large and varied stock of miscellaneous approval sheets for agents and collectors who are not very far advanced.

Fifty Per Cent. Discount.—Our 50 per cent. discount sheets contain a wide range of stamps from 1c to \$5 each, from every part of the world, and are highly recommended.

Special Notice.—The terms and conditions of our approval business are clearly set forth.

We will not deviate from the discounts mentioned above and it will save correspondence if our friends will understand to begin with.

More liberal offers may APPEAR to be made by others, but when price and condition are considered our stamps will be found to be cheaper. We sell stamps as cheap as it is possible for genuine stamps to be sold.

Collecting Terms Defined.

Albino—A stamp which is only an impression of the plate upon the paper without color.

Bogus Stamps—Those of which there are no originals. This name is sometimes applied to counterfeits.

Continental—European stamps of common grade.

Counterfeits—Imitations of genuine stamps.

Diagonally Laid—Paper with lines appearing diagonally across.

Dies—The engraving of stamps from which the impression is taken.

Embossed—Stamps having the design in relief, which are printed from a sunken die. See United envelopes. This word is sometimes used to designate "grilled" stamps.

Enameled—Paper with a colored surface finely calendered.

Error—A stamp on which some mistake is made, either in the engraving, color, perforation, printing or surcharge.

Essay—A design for a stamp submitted for approval and which shows the stamp as it will appear when printed. This name is usually given to designs that have been rejected.

Fac-Similes—Imitations of stamps. They only differ from counterfeits in that they are made and sold as copies of rare stamps.

Fake—A name given to a stamp that has been fraudulently manipulated in order that its value might be increased; also used to denote bogus or "suspicious" stamps.

Fiscals—Revenues.

Forgeries—See counterfeits.

Glazed—Paper much like enameled, but usually thinner.

Government Counterfeits—Stamps which are obsolete and the plates destroyed, and which are reissued by a government from new plates in imitations of the original issue. See United States 1847 issue, called reprints.

Government Reprints—Stamps reprinted by a government from the original plates after the issue obsolete.

Grille—A number of minute indentions on the back of stamps made by a steel die divided into very fine points. Grilling or embossing, was invented to break the texture of the paper so that the paper would absorb the ink in the cancellation of the stamp, to prevent the stamp from being cleaned and used again.

Horizontally Laid—Paper with horizontal lines.

Inverted Centers—When stamps are printed in two colors, the center has been known to be printed the wrong way. It is then called inverted.

India Paper—A very thin fiber paper.

Imperforated—Stamps having nothing to assist in separating. Unperforated.

Laid Paper—Has parallel lines close together in its substance.

Local—Stamps used by a corporation or individual. Not government issues.

Millimetre—The standard in the scale of measurement of stamps, etc. It is a one-thousandth of the metre and is equivalent to four-hundredths of an inch.

Native Paper—Used in stamps of Cashmere, Japan, etc.

Obliteration—The marks of cancellation applied to the stamp by the postoffice.

Obsolete—Stamps out of use and not receivable for postage.

Originals—Genuine stamps.

Overprint—A printing added to a stamp usually to complete its design and to make the stamp serviceable for a particular duty.

Pane—Descriptive of a block of stamps separated from another block or blocks on the same sheet of paper by spaces or margins between the blocks.

Pelure—A very thin and tough variety of wove paper.

Perforated—Having holes or indentions between the stamps.

Perforation Guage—A guage to ascertain the number of perforation. The perforation of a stamp is determined by the number of holes counted within the length of two centimetres, thus: If there be just fourteen holes within this space, the stamp is said to be "perforated 14."

Pin Perforation—Stamps perforated with holes pricked in the paper as with a pin or needle.

Plates—A series of reproductions from the same die, on plates of metal, thus making it practicable to print a large number in a single sheet.

Proof—The first impression of a stamp, showing it as it will appear when issued, and may be in different colors. They are generally on India paper or thin cardboard.

Provincials—Stamps used only in one province.

Provisionals—Stamps used temporarily until a new supply of the regular issue is received, and may consist of surplus stamps surcharged with a new value, or of fiscals surcharged with the word "Postage."

Quadrille Paper—Paper in which the watermarked lines cross each other and form squares or rectangles.

Re-engraved—Signifies that the design has been re-engraved.

Remainders—Old stamps remaining on hand when a new issue is placed on sale.

Reprints—Stamps reprinted from the original plates after the issue is obsolete.

Retouched—Plates that have become worn are retouched to produce a clearer impression.

Rouletted—A series of straight cuts made in the paper between the stamps to assist in the separation, thus:

Scalloped perforations (Pesce en Arc)—Separated by means of small indentions in the shape of curves.

Serpentine Perforations—The edges of the stamps are wavy when separated.

Specimen—A word surcharged on stamps by the government; the stamps not being good for postage.

Surcharge— new value, the name of the state or province, the word postage, specimen, etc., or a design printed on the face of the stamps.

Tablet—A small plain band or label on which the lettering or inscription is placed, and may be straight or curved.

Type-set—Stamps printed with ordinary printers' type

Unperforated—Is best applied to stamps which have been perforated and subsequently been trimmed down with smooth edges.

Watermarked—A design wrought into pulp of the paper during the process of manufacture.

Watermarked Paper—Contains devices produced by means of raised wires in the for desired on the dandy roll, which revolves on the paper while in a pulpy state.

Wood Block—A design for a stamp engraved in reverse on box-wood and the printed impression is made from the engraving.

Wove Paper—Shows an even texture, and may be watermarked or unwatermarked, and may vary in thickness from tissue paper to card board. It is usually employed for books and newspapers: if unwatermarked it is termed plain wove.

WE WANT YOUR WANT LISTS.

The most systematic collectors invariably take a recent catalogue in hand and compare their album with it, making up therefrom a list of stamps which they lack and will buy at reasonable prices. If you have not made up such a list prepare one and let us assist you in completing your collection.

Special books will be made up containing such stamps as you may require which we have in stock, at net prices, according to character of stamps wanted.

This is the best and most satisfactory way to add to your collection.

Please send reference if you are not known to us.

Correspondents in Africa, Asia, Australia, South America and the West India Islands are requested to send us stamps to the value of \$5 or \$10 of any new or provisional issues which may appear in their country, and we shall remit the amount by return mail, allowing 15 per cent. commission on ordinary issues and 30 per cent. commission on provisional issues, such commission to be taken in stamps, etc., selected from our lists, in case the stamps are sent within 15 days of their issue.

WE PAY CASH

for all kinds of better class stamps, and desire persons having any for sale to send list of same, stating what your lowest cash price is per each, per 100 or the lot. Do not send list without stating quantity you have and quoting your lowest cash price, or it will not receive attention.
